

## Hatigen Consulting Services Pvt Ltd

### **Microsoft Certified: Azure Administrator Associate AZ-104 Training Course**

#### **Table of Contents:**

- Program Overview
- Program Features
- Delivery Mode
- Prerequisites
- Target Audience
- Key Learning Outcomes
- Certification Alignment
- Certification Details and Criteria
- Course Curriculum
- Course End Projects
- Tools/Services Covered
- About Us

#### **Program Overview:**

Hatigen's Azure Administrator training provides you with a deep understanding of the Azure environment's entire administrative lifecycle. This course shows you how to maintain Azure services related to computing, storage, network, and security. Enhance your Azure Administrator skills and prepare to ace the AZ-104 Azure Administrator exam.

#### **Program Features:**

- Trusted content
- Re-learn for free anytime in a year
- Rigorous assignments and assessments
- Learn at your own pace

## Hatigen Consulting Services Pvt Ltd

- Mandatory feedback sessions
- Mock-interview
- Hands-on real-time experience
- Free Mentorship
- Live chat for instant solutions
- Job-ready employees post-training
- End-to-end training
- Download the certificate after the course

### **Delivery Mode:**

- Online Training

### **Prerequisites:**

The Azure Administrator certification course requires professionals to be proficient in using PowerShell and the Command Line Interface. They should also have prior experience with Azure Portal, ARM templates, operating systems, virtualization, cloud infrastructure, storage structures, and networking.

### **Target Audience:**

The course is best suited for Azure administrators and engineers, system administrators looking to expand into Azure, and IT professionals.

### **Key Learning Outcomes:**

After completing the Azure Administrator online training course, you will be able to:

- Manage subscriptions, billing, and role-based access control regarding Azure users and groups
- Utilize Azure Monitor to configure alerts and review the Azure Activity Log
- Deploy resources with ARM templates and organize Azure resources

## Hatigen Consulting Services Pvt Ltd

- Implement, manage, and secure storage with shared access keys, Azure backup, and Azure File Sync
- Store and access data using Azure Content Delivery Network and the Import and Export service
- Build, execute, manage, and monitor virtual machines in Azure Portal with Azure PowerShell
- Use Azure DNS domains, zones, record types, and resolution methods
- Execute site connectivity schemas comprising VNet-to-VNet connections and virtual network peering
- Integrate, secure, and manage identities with Azure Active Directory, Self-Service Password
- Reset, Azure AD Identity Protection, and integrated SaaS applications
- Migrate servers to Azure
- Implement use cases and configuration options for Azure App Services and App Service environments
- Manage and secure web apps with backup, restore, snapshot, and cloning
- Deploy serverless computing features such as Azure Functions, Event Grid, and Service Bus
- Configure Azure Load Balancer, Azure Traffic Manager, and Azure Application Gateway
- Use Azure RBAC to grant a granular level of access based on an administrator's assigned tasks
-  Utilize Azure Multi-factor Authentication to configure strong authentication for users at sign-In
- Execute Azure AD Privileged Identity Management to configure access rights based on the just-in-time administration Certification Alignment:

## Hatigen Consulting Services Pvt Ltd

- Silver Microsoft Partner, and this course is accredited by Microsoft. Certification Details and Criteria:
- To earn Azure Developer certification, you must pass the following exam:

### **AZ-104: Microsoft Azure Administrator**

NOTE: This exam is a replacement of AZ-103: Microsoft Azure Administrator which got updated to AZ-104 on APRIL 2, 2020. You will be able to take the old exam until it retires on August 31, 2020. The exam costs \$165.00 plus tax for US residents and INR 4800 plus tax for India residents. This fee is paid to Microsoft when you register for your exam.

### **Course Completion Criteria-**

- Attend at least 85 percent of the course or one complete batch
- Successful evaluation in at least one project

### **Course Curriculum:**

#### **Section 01 - Quick Start**

- Course Introduction

#### **Section 02 - Microsoft Azure Administrator Course**

- Microsoft Azure Administrator Course
- Welcome to the Course
- Multi-Channel Learning and Other Resources

#### **Section 03 - Manage Azure Subscriptions**

- Manage Azure Subscriptions
- Cost Center and Tagging
- Managing Policy by PowerShell and CLI
- Azure Policy

## Hatigen Consulting Services Pvt Ltd

### **Section 04 - Analyse Resource Utilization and Consumption**

- Diagnostics
- Baseline Environment
- Create Alerts
- Create Metrics
- Action Groups
- Manage Costs
- Log Analytics

### **Section 05 - Manage Resource Groups**

- Resource Group
- Policy
- Move Resources
- Section One Wrap Up

### **Section 06 - Create and Configure Storage Accounts**

- Create and Configure Storage Accounts
- Virtual Networks and Firewalls
- Access Keys and SAS
- Storage Explorer
- Log Analytics
- Redundant Storage

### **Section 07 - Import and Export Data to Azure**

- Import and Export Data to Azure
- Blob Storage
- CDN

## Hatigen Consulting Services Pvt Ltd

### **Section 08 - Configure Azure Files**

- Configure Azure Files
- Azure File Sync
- Troubleshoot Azure File Sync

### **Section 09 - Azure Backup**

- Azure Backup
- On-Premises Backup
- Backup Reports
- Section 2 Wrap Up

### **Section 10 - Azure Virtual Machines**

- Azure Virtual Machines
- Connect to a Virtual Machine
- VM Availability
- VM Monitoring
- Virtual Machine Scale Sets (VMSS)

### **Section 11 - Windows and Linux VMs**

- Windows and Linux VMs - Part One
- Modify Existing ARM Templates - Part Two
- Modify Existing ARM Templates - Part Three
- Modify Existing ARM Templates - Part Four
- Deploy Linux VM Using ARM Templates

### **Section 12 - Manage Azure VM**

- Manage Azure VM
- Add NIC Interfaces to a VM

## Hatigen Consulting Services Pvt Ltd

- Change VM Size
- Redeploy a VM

### Section 13 - Manage VM Backups

- Manage VM Backups
- VM Backup Jobs and Restores
- Wrap Up

### Section 14 - Virtual Network Connectivity

- Virtual Network Connectivity
- VNet-to-VNet Connection

### Section 15 - Manage Virtual Networking

- Manage Virtual Networking
- Public IP Addresses
- Network Routing

### Section 16 - DNS

- DNS
- Assign a Custom Domain

### Section 17 - Network Security Groups

- Network Security Groups
- Implement Effective NSG Rules
- Wrap Up

### Section 18 - Azure Active Directory

- Azure Active Directory
- Create Azure AD

## Hatigen Consulting Services Pvt Ltd

- Add Custom Domains
- Trial Upgrade to Premium P2
- AD Identity Protection
- Self Service Password Reset
- Conditional Access
- Access Reviews

### Section 19 - Manage AD Objects

- Manage AD Objects
- Manage Devices

### Section 20 - Hybrid Identities

- Hybrid Identities
- Wrap Up

### Section 21 - Implement Multi-Factor Authentication (MFA)

- Implement Multi-Factor Authentication (MFA)
- AAD Conditional Access
- Configuring Fraud Alerts
- MFA One Time Bypass
- AAD MFA Verification Methods Trusted IPs

### Section 22 - Managed Role-Based Access Control (RBAC)

- Managed Role-Based Access Control (RBAC)
- Creating Custom RBAC Roles

### Section 23 - Implement Azure Load Balancer

- Implement Azure Load Balancer
- Setup Load Balancer

## Hatigen Consulting Services Pvt Ltd

- Front End IP Configuration

### **Section 24 - Monitor and Troubleshoot Virtual Networking**

- Monitor and Troubleshoot Virtual Networking
- Network Watcher

### **Live Virtual Class Curriculum:**

#### **Manage Azure identities and governance**

- Manage Azure AD objects
- Manage role-based access control (RBAC)
- Manage subscriptions and governance

#### **Implement and manage storage**

- Manage storage accounts
- Manage data in Azure Storage
- Configure Azure files and Azure blob storage

#### **Deploy and manage Azure compute resources**

- Configure VMs for high availability and scalability
- Automate deployment and configuration of VMs
- Create and configure VMs
- Create and configure containers
- Create and configure Web Apps

#### **Configure and manage virtual networking**

- Implement and manage virtual networking
- Configure name resolution
- Secure access to virtual networks

## Hatigen Consulting Services Pvt Ltd

- Configure load balancing

### **Monitor and troubleshoot virtual networking**

- Integrate an on-premises network with an Azure virtual network
- Monitor and back up Azure resources
- Monitor resources by using Azure Monitor
- Implement backup and recovery

### **Course End Projects:**

#### **Project 1: Implement the Azure IaaS**

OSS Corporation is evaluating Azure as a deployment platform. To do this they need to create virtual networks in the aforementioned region, create test virtual machines in both virtual networks, establish the connectivity between both the networks via VNet peering, and ensure connectivity is established properly.

#### **Project 2: Using Azure Portal to Implement Security and PaaS Service**

OSS Corporation has decided to onboard an employee on the company's Default Azure Active Directory and assign a Custom RBAC role under which they will be able to read the network, storage along with VM. Under this custom RBAC, the employee should also be given permission to start and restart the VM. Your task is to onboard the employee under Default Azure AD, create the Custom RBAC for the role of computer operator, and provision and implement the Azure Web App.
